

Katharine Heyl is a member of the Research Unit Sustainability and Climate Policy in Leipzig since 2019. She works as a research assistant at the Leibniz ScienceCampus Phosphorus Research Rostock which is constituted of different institutes including the Research Unit Sustainability and Climate Policy. The thematic area of her work are questions related to land-use-governance and phosphorus-governance. Her doctoral thesis is on the reform of the Common Agricultural Policy of the European Union with a focus on the role of subsidies in sustainability policy in general and the promotion of closed nutrient cycles in agriculture in particular. Katharine Heyl holds a master's degree in International Urban and Environmental Management (Royal Melbourne Institute of Technology).

## **Publications**

1. [The Common Agricultural Policy beyond 2020: A critical review in light of global environmental goals, in: Review of European, Comparative and International Law \(in print\) \(together with Tobias Döring, Beatrice Garske, Jessica Stubenrauch and Felix Ekardt\)](#)
2. [Challenges of Food Waste Governance - An Assessment of European Legislation on Food Waste and Recommendations for Improvement by Economic Instruments, in Land \(2020\) \(together with Beatrice Garske, Felix Ekardt, Lea Moana Weber and Wiktoria Gradzka\)](#)
3. Lebensmittelverluste als Governance- und Rechtsproblem, in: Natur und Recht (to be published in August 2020) (together with Beatrice Garske, Felix Ekardt, Lea Moana Weber and Wiktoria Gradzka)

## **Presentations**

1. The Reform of the Common Agricultural Policy (CAP) – Presentation at the P-Campus Symposium at the Leibniz Institute for Baltic Sea Research Warnemünde (November 2019)
2. Phosphorus-Governance from a Cross-National Perspective – Presentation at the International Phosphorus-Workshop at the ETH Zurich (July 2019, together with Jessica Stubenrauch)
